

Features

The Nfortec Dys gaming tower is designed to offer a fully functional and compact solution, without sacrificing aesthetics or protection. Made from high-quality materials such as its steel chassis and a hinged tempered glass side panel, the Dys protects your components while displaying them. With a 3D design mesh front and three pre-installed ARGB fans, it ensures excellent ventilation and impressive lighting effects right out of the box. It is the perfect option for those looking for a powerful setup in the minimum space.

DESIGN

The Dys tower features a steel chassis that ensures the durability and stability of all your components. Its 3D mesh front not only optimizes airflow, but also gives it a modern and functional aesthetic. For easy maintenance, it includes a dust filter at the bottom and a magnetic filter at the top. Its hinged tempered glass side panel allows you to show off your components and facilitates any modification inside. In addition, you can choose between the white or black models to show off your set-up.

COMPATIBILITY AND EXPANSION

The measurements of 340mm x 205mm x 412mm make the Dys tower a compact yet spacious model. It is compatible with MicroATX and ITX motherboards, perfect for building a high-performance PC in a small space. Inside, you can install graphics cards up to 340mm in length and CPU coolers up to 160mm in height. The independent bottom bay can accommodate power supplies up to 180mm and has 4 expansion slots. Its front panel offers a USB 3.0 port, two USB 2.0 ports, and a 3.5mm HD jack for your main peripherals.

COOLING SYSTEM

The cooling system of the Dys is prepared for optimal performance. It includes three pre-installed ARGB fans (two on the front and one on the rear) that create excellent airflow to keep your components at the ideal temperature. With a 5V 3-pin connector, the lighting of these fans can be synchronized with that of other components through the motherboard or a controller. The tower accepts a total of 6 fans: 3x 120mm or 2x 140mm at the front, 2x 120mm or 2x 140mm at the top, and 1x 120mm at the rear.

Technical Specifications

GENERAL SPECIFICATIONS

Model No.: DYS
Materials of construction: 0.6mm SPCC steel, tempered glass
Expansion Slots: 4
I/O Ports: 1x USB 3.0, 2x USB 2.0, 1x Headset/Microphone, On/Off Button, RGB LED Control Button
Dust filters: 1x Top (Magnetic), 1x Bottom
Dimensions (L x W x H): 340mm x 205mm x 412mm
Weight: 4.9 kg

VENTILATION

Total fan capacity: Up to 6 fans
Fans included: 3 (2x front, 1x rear)
Fan Location:
Front: 3x 120mm or 2x 140mm (2x RGB included)
Top: 2x 120mm or 2x 140mm
Rear: 1x 120mm (1x RGB included)

LIQUID COOLING

Location Compatibility:
Front: 120mm, 240mm
Upper: 120mm, 240mm
Rear: 120mm

COMPATIBILITY

Motherboards: MicroATX, ITX
Graphics card (GPU): Up to 330mm
Heatsink (CPU): Up to 160mm
Power supply (PSU): ATX format up to 180mm

RGB COMPATIBILITY

Lighting Type: ARGB (Sync to 3pin 5V Motherboard)

DIMENSIONS

Packaging (LxWxH): 495mm x 250mm x 440mm 5.05Kg
Warranty: 3 years
