

Features

The Newskill Kaliope microphone is the professional RGB peripheral designed to ensure flawless, high-quality communication in any gaming or content creation environment. Focused on professionalism and versatility, Kaliope delivers maximum performance, eliminating the interference that makes the difference between victory and disappointment. It delivers clear, crisp sound, enhanced by a sleek design, customisable lighting and intuitive controls.

PROFESSIONALISM AND AUDIO QUALITY

Kaliope guarantees maximum clarity of the voice thanks to its unidirectional pattern of cardioid reception, which concentrates the sound pick-up and effectively eliminates background noise and external interference. For studio-quality audio, it includes an anti-POP filter that neutralizes distracting explosive noises produced during speech. In addition, it incorporates a 3.5 mm jack that allows you to monitor any live recording and with maximum sound fidelity.

ELEGANCE AND LIGHTING

Made with a metal frame and a sleek matte black finish, Kaliope offers the stability and aesthetics needed for a high-end set-up. Its RGB backlighting system allows you to customize the synchronization with rotating color effects or a fixed mode with five colors. The "on-the-fly" controls located on the front facilitate direct and intuitive operation, allowing you to mute the microphone, adjust the volume or change the color of the lighting without the need for external software.

DESIGN AND COMFORT

With dimensions of 270 mm high (with tripod) and 175 mm wide, this accessory fits perfectly into any space on your desk. Its setup is intuitive and simple, making it ideal for both veteran streamers and newcomers. For added flexibility, the microphone is equipped with a 1.8-meter long cable.

Technical specifications

GENERAL SPECIFICATIONS

Model No.: Newskill Kaliope
Connectivity: USB cable (1.8m)
Resolution: 16-bit / 48KHz
Lighting: RGB (color cycle or 5-color fixation)
Controls: Mute, Gain/Volume and Color (On-the-fly controls)
Product Weight: 625g (Microphone, Stand & Accessories)
Power Input: 5V - 100mA

MICROPHONE

Type: Electret Capacitor
Capacitor size: 14 mm
Polar Pattern: Cardioid (Unidirectional)
Pop filter: Yes (External included)
Sensitivity: -36dB±2dB
Maximum SPL: 130 dB
Frequency response: 30 Hz-18 kHz

CONNECTIVITY

Interface: 3.5mm Jack
Monitoring: Yes (Direct real-time monitoring)
Impedance: 32Ω
Frequency range: 20 Hz-20 kHz
Sensitivity: -36dB±3dB

DIMENSIONS

Product Size: 270mm (Height with tripod)
Packaging (L x W x H) & Weight: 13cm×26.5cm×8.3cm; 0.70 kg
Warranty: 3 years

Package Contents

Newskill Kaliope
1.8 meter USB Type-C to Type-A cable
User Manual
