

Features

The Nfortec Krater X is a chassis that perfectly combines aesthetics and performance for the most demanding gamers. Its mesh front ensures optimal airflow, while its 4 pre-installed A-RGB fans, along with a top LED strip, create an immersive aesthetic from the get-go. The Krater X evolves Krater's original design with an expanded size, capable of housing the most powerful components of the new generations.

DESIGN

The Krater X maintains the essence of the popular original design, incorporating an enhanced aesthetic with LED lighting on the top. Made with a robust 0.7mm thick chassis, this tower is not only visually appealing, but also offers the durability needed for any configuration. With 28mm of space for cable management, you can achieve a clean and professional assembly, facilitating unobstructed airflow.

COMPATIBILITY AND EXPANSION

The size of the Krater X has been increased to ensure full compatibility with the most modern components. It can accommodate large motherboards such as E-ATX, as well as ATX, Micro-ATX, and Mini-ITX form factors. Its spacious interior offers up to 340mm of depth for almost any next-generation graphics card. It also allows you to install CPU airships up to 170mm in height.

COOLING SYSTEM

The Krater X's cooling system is powerful and customizable. Includes 4 pre-installed 120mm A-RGB fans, controlled by a controller that allows synchronizing the lighting with any manufacturer's motherboard thanks to its standard 3pin 5V A-RGB connector. The tower has the capacity to install up to 6 120mm fans (4 already pre-installed) or up to 5 140mm fans and one 120mm. For liquid cooling enthusiasts, Krater X supports radiators up to 240mm at the top and up to 360mm at the front panel.

Technical Specifications

GENERAL SPECIFICATIONS

Model No.: KRATER X
 Dimensions (L x W x H): 420mm x 216mm x 489mm
 Weight: 6.9 kg
 Materials of construction: 0.7mm SPCC steel, Tempered glass
 Expansion Slots: 7
 Bays: 2x 3.5" + 2x 2.5"
 I/O Ports: 2x USB 3.0, 1x Headset/Microphone, On/Off Button, Reset Button, LED Button
 Dust filters: 1x Front, 1x Top, 1x Bottom

VENTILATION

Total fan capacity:
 Front: 3x 120mm / 3x 140mm
 Top: 2x 120mm / 2x 140mm
 Rear: 1x 120mm
 Fans included: 4 (3x front A-RGB, 1x rear A-RGB)
 Fan Location:
 Front: 3x 120mm (3x A-RGB included)
 Rear: 1x 120mm (1x A-RGB included)
 Top: 2x 120mm / 2x 140mm

LIQUID COOLING

Location Compatibility:
 Front: 120mm/240mm/360mm
 Top: 120mm/240mm
 Rear: 120mm

COMPATIBILITY

Motherboards: E-ATX, ATX, MicroATX, ITX
 Graphics card (GPU): Up to 340mm
 Heatsink (CPU): Up to 170mm
 Power supply (PSU): ATX format up to 200mm
 Cable management: 28mm

COMPATIBILITY RGB

Lighting Type: A-RGB

DIMENSIONS

Packaging (LxWxH): 546mm x 288mm x 489mm 8.15 Kg
 Warranty: 3 years
