

Features

The Nemesis V2 XL is a gaming mat with perimeter RGB lighting designed to offer a smooth and precise experience with a customizable visual touch. With dimensions of 960 × 360 × 4 mm, it offers an extra large surface area designed for large installations, ensuring enough space for a mouse and keyboard in the same base.

LIGHTING AND CUSTOMIZATION

Equipped with an RGB lighting system with multiple effects and fixed colors, the Nemesis V2 XL allows you to customize your gaming space with a single button or via dedicated software, reaching up to 16.9 million combinations. Its dynamic modes include rainbow, breathing, and rotation effects, bringing a vibrant and unique touch to your desktop.

FAST AND SMOOTH

The pressed ultra-fine microfiber surface ensures a fast and consistent glide of the mouse, optimized for optical and laser sensors. This texture favors both fast movements and precision actions, adapting to different styles of play.

SAFE AND STABLE

Its 4mm non-slip rubber base keeps the mat fixed to any surface, preventing accidental shifting during intense matches. The plug & play design with a 2-meter USB cable ensures convenience and immediate connection without the need for configuration.

DURABILITY AND STYLE

With durable materials and premium finishes, the Nemesis V2 XL combines aesthetics and reliability. Its XL format gives a professional and gamer look to the set-up, while ensuring a long-lasting product that is easy to maintain in optimal condition.
