

Features

The **Nfortec Sculptor X2** is an air-cooler for CPU designed to offer maximum thermal performance in gaming and professional configurations. With **six direct-contact heatpipes** and dual 120mm ARGB fans, it ensures efficient cooling up to **240W TDP**, keeping state-of-the-art processors stable under intensive load. Its compact 158 mm tall design ensures compatibility with most chassis, while its synchronizable ARGB lighting adds a customizable aesthetic touch to any setup.

DOUBLE ROOK

With its dual-fan design for increased thermal performance, the Nfortec Sculptor X2 is a high-performance airsink designed for power-hungry systems, now with a dual fan that optimizes airflow and significantly improves thermal dissipation. With its ability to support up to 240W of TDP, it is ideal for demanding processors, offering effective cooling even under maximum load.

IMPROVED DESIGN

Improved heatpipe layout. One of the key improvements in the design of the Sculptor X2 is the optimized arrangement of the heatpipes, which has been refined to avoid any interference with the RAM modules. This ensures an unobstructed installation, allowing you to make the most of the motherboard's space without compromising component performance.

ADJUSTABLE FAN

Equipped with two silent fans with adjustable speed control. The 120mm fans incorporated in the Sculptor X2 work with a hydraulic bearing system, providing quiet and efficient operation. In addition, the adjustable speed between 500 and 1800 RPM allows you to balance performance and noise level, adjusting to the user's needs.

COMPATIBILITY

Sculptor X2 has great support for Intel and AMD sockets, as it is compatible with a wide range of Intel and AMD sockets, including the latest models, ensuring its versatility in any PC configuration. Its improved mounting system makes installation easier, providing a hassle-free user experience.

Especificaciones técnicas

GENERAL SPECIFICATIONS

Model: Nfortec Sculptor X2

Type: Air-based CPU heatsink with dual fan and ARGB lighting

TDP: 240 W max.

HEATSINK

Dimensions: 158 × 125 × 135 mm

Heatpipes: 6 × 6 mm continuous copper (direct contact)

Material: Aluminum fins

FANS

Dimensions: 120 × 120 × 25 mm (x2)

Speed: 500 – 1800 RPM ±10%

Airflow: 73.59 CFM ±10%

Air pressure: 2.02 mmH₂O

Noise level: 16.2 – 31 dB(A)

CONNECTIVITY

LED connector: 5V ARGB (3-pin)

Fan connector: 4 Pin PWM

Rated Voltage: 12V DC

Rated current: 0.4 A max.

Rated power: 4.8 W max.

LED Power: 4 W

COMPATIBILITY

Intel: LGA 115X / 1200 / 1700 / 1851 / 1366

AMD: AM4 / AM5

DIMENSIONS

Packaging (LxWxH): 190 × 169 × 235 mm; 1.04 kg

Warranty: 3 years

Package Contents

Sculptor X2

Mounting accessories (screws, cables, anchors for AMD and INTEL...)
