

Features

The Newskill **Sobek 7.1 V2** offers an immersive gaming experience with 7.1 virtual sound and an omnidirectional microphone. Its adjustable equalizer and lighting allow for complete customization. With an ergonomic and durable design, they are compatible with PC, Mac, and PlayStation consoles. The perfect choice for gamers looking for comfort and performance.

IMMERSE YOURSELF IN SOUND

With the Sobek 7.1 V2 headset from Newskill, immersion in the game reaches a new level. Enjoy 7.1 virtual surround sound that lets you hear every step and explosion with pinpoint accuracy, taking you right to the heart of the action. This model, improved to avoid electrical interference, keeps the quality and performance you are looking for intact

CLEAR AND ACCURATE COMMUNICATION

Team victory depends on communication. The Sobek 7.1 V2's omnidirectional microphone captures your voice with crystal clarity, while the in-line mute function gives you full control of your voice at the right moment.

DESIGN AND CUSTOMIZATION TAILORED TO YOUR NEEDS

The Sobek 7.1 V2 not only sounds amazing, but also adapts to your style. Customize your audio experience with the software-adjustable equalizer and add a pop of color to your setup with in-line button-controlled lighting. Its ergonomic and durable design, with adjustable headband and padded ear pads, ensures maximum comfort even in the longest gaming marathons.

TOTAL CONNECTIVITY

Designed for versatility, these headsets connect via a 2.4-meter USB-A cable and are compatible with PC, Mac, PS4, and PS5, making them the perfect accessory for any gamer, no matter the platform.
