

Features

The new **Nfortec URSA** is a premium gaming tower designed for enthusiasts and gamers looking for the ultimate in robustness, style, and performance. It combines a 0.8 mm SPCC steel structure and 4 mm tempered glass, offering a modern design with double hinge for hassle-free assembly and maintenance. It is compatible with E-ATX, ATX, Micro-ATX, ITX motherboards and even with the new BTF standard, guaranteeing great versatility. With its ample expandability and efficient cooling system for up to 10 fans and liquid cooling, the URSA is ideal for any high-performance setup.

DESIGN

The Nfortec URSA tower is created for gamers and hardware enthusiasts looking for a robust and spacious solution. With hinged tempered glass front and side panels, the URSA provides full access to the inside of the equipment to mount and maintain your components. Its design with double glass window and its rear panel with double microperforated gate without dust filters allow for simple and efficient cable management. In addition, the design is optimized for the new BTF (Back to the Future) motherboards.

MATERIALS

With a size of 472 mm x 240 mm x 500 mm, the URSA combines 0.8 mm SPCC steel and 4 mm tempered glass for superior durability and aesthetics. Screwless, detachable wire mesh panels allow for easy installation and maintenance. The Nfortec URSA offers full compatibility with EATX, ATX, Micro-ATX, and ITX motherboards, giving you great versatility to create the configuration you want.

COMPATIBILITY AND EXPANSION

The URSA offers ample interior space for your components. It supports graphics cards up to 430mm, CPU coolers up to 185mm, and power supplies up to 180mm. You can store up to two 3.5" drives or four 2.5" drives thanks to its liftgate anchors. The side I/O panel includes two USB 3.0 ports and one USB Type-C port for high-speed connectivity. With seven standard PCI expansion slots, you'll have all the capacity you need for the future.

COOLING SYSTEM

The cooling system of the Nfortec URSA is highly efficient. It comes with four pre-installed 120mm A-RGB fans with 4Pin PWM and 5V-3Pin connectors, ensuring powerful and quiet airflow. With the capacity to house up to 10 fans, the URSA also supports liquid cooling of up to 420mm on top and 360mm on the side panel. The four pre-installed fans are managed with an A-RGB controller that supports up to 10 fans.

Technical Specifications

GENERAL SPECIFICATIONS

Model: URSA
Form factor: Tower
Materials: 0.8mm SPCC steel and 4mm tempered glass
Panels: Tempered glass and metal mesh panels with double hinge and no screws
Expansion Slots (PCI): 7
Bays: 2 x 3.5" or 4 x 2.5"
I/O port: 2 x USB 3.0, 1 x USB Type-C, 1 x 2-in-1 HD audio, power button, reset button/RGB switch
Product dimensions (LxWxH): 47.2 x 24.0 x 50.0 cm
Weight: 11.38 kg

VENTILATION (capacity for up to 10 fans)

Side panel: 3 x 120 mm (including A-RGB)
Back panel: 1 x 120 mm (including A-RGB)
Top panel: 3 x 140 mm or 3 x 120 mm (not included)
PSU Cover: 2 x 120mm (not included)
Bottom: 1 x 120mm (not included)
ARGB Controller: Includes A-RGB controller up to 10 fans

LIQUID COOLING (not included)

Upper: 360mm/280mm/240mm
PSU Cover: 360 mm / 240 mm
Rear: 140 mm

COMPATIBILITY

Motherboards: EATX / ATX / Micro ATX / ITX
Graphics card (GPU): up to 43.0 cm
Heatsink (CPU): up to 18.5 cm
Power supply (PSU): up to 18.0 cm
Cable management: 37 mm with swing gates

RGB COMPATIBILITY

Type: Addressable (A-RGB)

DIMENSIONS

Packaging (LxWxH): 592 x 352 x 585 mm; 11.38 kg
Warranty: 3 years
